

# Heavy Equipment Mechanic

1015 Gap Street  
Hegins, PA 17938

## BACKGROUND

In 1948, the sons of Joseph and Carmela Stavola founded Stavola Contracting Co., the first Stavola Company. Today, Stavola Companies remain a family-owned and operated business, consisting of four major divisions: Asphalt and Recycling Materials, Construction Materials, Contracting (heavy highway construction) and Real Estate, all located in New Jersey. What started as a company offering basement excavation and driveway paving now has 3 quarries, 10 asphalt plants, 3 recycling centers, and several gravel mining operations.

## SUMMARY/OBJECTIVE

Perform repairs and preventative maintenance on fleet vehicles and heavy equipment machinery to maximize safe and productive operations.

## ESSENTIAL FUNCTIONS

Maintain, diagnose, and repair all types of gas and diesel equipment, including, but not limited to, excavators, dozers, off-road trucks, wheel loaders, water & lube trucks, service trucks, pickups, dump trucks/trailers, and other support equipment; primarily Caterpillar and Komatsu. Typical repairs and maintenance would include work on engines, transmissions, chassis, drivelines and body components, hydraulic, brake, electrical and suspension systems, wheels, tires and undercarriages. Preventative and maintenance duties includes but not limited to clean, check fluid levels, change oil, lubricate, and brake jobs. Retain records of work completed. Keeping work area clean, safe and hazard free.
