

About our company:

Guilford is a supplier of textiles to the global automotive industry as well as to industrial and medical markets in the U.S. With revenues of approximately \$475 million and 1500 employees worldwide, we have two manufacturing facilities in the US, one in the UK, and one in France. Guilford is owned by Lear Corporation, a leading global supplier of automotive seating and electrical power management systems, with over \$14 billion in revenue, operations in 35 countries and a culture that is dedicated to operational excellence, superior customer service and continuous improvement.

This position is located in our Pine Grove, Pennsylvania facility, which is approximately 30 minutes northeast of Harrisburg, the state capitol of Pennsylvania. Pine Grove also has easy access to both Baltimore and Philadelphia, both of which are about two and one-half hours from the facility. Our Pine Grove facility develops and manufactures a wide array of products for the Company's Specialty Products Group.
