SENIOR AWARD CONTRACT

This year, as in every other year, the Schuylkill Technology Center is offering a senior award for the outstanding student in his/her respective trade area.

The goal of the senior award program is to recognize outstanding student achievements in preparation for rewarding careers in the trade, service, and technical fields. Emphasis is placed upon a student's knowledge of both theory and practical application.

The importance of attendance, accuracy, and quality of work is strongly emphasized as those qualities influence the student's future attitude concerning workmanship, regardless of his/her choice of vocation.

To be eligible for this award, the student must meet the following requirements:

- 1) The student must complete a minimum of 430 hours per semester in each respective program;
- 2) The student must maintain an "A" average for the entire senior year;
- 3) The student must not have been suspended for any reason throughout the entire senior year;
- 4) The award is the decision of the shop instructor and the decision will be final and not subject to review.

I, _____ agree to the above terms.
